INDEX TO VOLUME L

[NOTE.—In this index the title to principal papers and headings of departments, as *Discussions,* are in italics.]

Abraham, E. M., on Long and Spragge Townships, Ontario, 370

Abstracts—

Age and sedimentary environments of uranium host rocks, Colorado Plateau (Isachsen, Mitcham, and Wood), 127

Allegheny-Lower Conemaugh stratigraphy in northern West Virginia (Cross and Schemel), 770

Alteration and mineralization in the Irwin district, Gunnison County, Colorado (Socolow), 100

Alteration near an acid halogen—sulfur fumarole (Lovering), 786

Altitude of the Sierra Nevada during Mio-Pliocene time (Axelrod), 767

Annotated bibliography on the geology of [Austrian] dam sites until 1954 (Winkler), 875

Application of fluorescent x-ray spectroscopy in geochemistry (Adler and Axelrod), 765

Applications of cross-stratification studies to problems of uranium exploration, Chuska Mountains, Arizona (Lowell), 177

Association of uranium with a naturally occurring coal extract (Breger), 767

Behavior of petrographic components of North Dakota lignite in preparation, low-temperature carbonization and steam-drying (Traverse), 102

Biogeochemical prospecting at the Shawangunk mine—A case study (Worthington), 420

Biogeochemical reconnaissance of the Annie Laurie uranium prospect, Santa Cruz County, Arizona (Anderson and Kurtz), 227

Bleaching clay deposits, Sanders-Defiance Plateau district, Navajo country, Arizona (Kiersch and Keller), 469

Broad aspects of the application of geology to engineering projects in the Mississippi alluvial valley (Andersen), 765

Carbonate bank deposits in the Devonian of the Alberta Rocky Mountains (McLaren), 787

Chalcocite-ore deposits at Corocoro, Bolivia (Entwistle and Gouin), 555

Comments on minor elements in pyrrhotite (Fryklund and Harner), 339

Computation of chemical analyses of coal speeded by use of IBM punched cards (Parker), 789

Abstracts—Continued

Concept, technique, and language in coal petrology (Schopf and Gray), 790

Contribution to studies of origin of Precambrian banded iron ores (Alexandrov), 459

Engineering geology of the Thartar project (Iraq) (Nigra), 789

Engineering problems associated with weathered limestone (Thornburn and Deere), 794

Engineering properties of bedrock weathering products in the southeastern Piedmont (Conn and Sowers), 769

Evidence of polar shift since Triassic time (Graham), 777

Exploration for the Cubatoa underground powerhouse and pressure shaft, Brazil (Fox), 776

Exploration of the petrographic constitution of four Ohio coals (Cady and Smith), 768

FeS—NiS system (Kullerud), 785

Field method for the determination of ammonium citrate-soluble heavy metals in soils and alluvium (Bloom), 533

Foundation characteristics of late Quaternary clays offshore near modern Mississippi delta (McClelland), 787

Foundation engineering problems in New Orleans area (Eustis), 773

Foundation problems during construction of Algiers lock and canal (Huesmann), 781

Genesis of asbestos in ultrabasic rocks (Riordon), 67

Geochemistry and mineralogy of a uraniferous lignite (Breger, Deul, and Rubinstein), 206

Geochemistry and mineralogy of a uraniferous sub-bituminous coal (Breger, Deul, and Meyrowitz), 610

Geochemistry and origin of the gold bearing quartz veins and lenses of the Yellowknife greenstone belt (Boyle), 51

Geologic structures surrounding the Santa Rita intrusive, New Mexico (Ordonez, Baltosser, and Martin), 9

Geologic studies of coal mine roof shales (Simon), 103

Geological, mineralogical and crystallographic factors in the exploitation of lepidolite deposits (Heinrich and Levinson), 99

Abstracts—Continued
Geological implications of an indirect method for mapping regional folds in Archean rocks (Gross), 321
Geological observations from the Geneva Conference on Peaceful Uses of Atomic Energy (Kerr), 782
Geological problems in highway engineering, Mississippi alluvial valley of Louisiana (Hough), 780
Geological problems in the design and construction of flood control structures in the Mississippi alluvial valley (Schultz), 791
Geology and iron ores of Steep Rock Lake (Jolliffe), 373
Geology of important hydroelectric power stations of Austria (Winkler), 862
Geology of the Atacocha mine, Department of Pasco, Peru (Johnson), 249
Geology of the uranium deposits of the Lukachukai Mountains area, northeastern Arizona (Masters), 111
Geology of uranium (Klepper and Wyant), 784
Geotectonic significance of the continental shelves (Fairbridge), 774
Germanium content of some Nova Scotian coals (Hawley), 517
Gold-scheelite-cinnabar placer in Humboldt County, Nevada (Willden and Hotz), 661
Igneous intrusions and metamorphism in some phosphatic rocks of southwestern Montana (Lowell), 715
Interrelation of river channel patterns—braided, meandering, and straight (Leopold), 786
Investigation of the coking properties of coal by vacuum differential thermal analysis (King and Kelley), 106, 832
Investigations, areal and engineering geology—Folsom dam project, central California (Kiersch and Treasher), 271
Is carbon dioxide an ore-forming fluid under shallow-earth conditions (Garrels and Richter), 447
Isotopic geochemistry of carbon (abstract), 104
Lead-zinc veins of the Chilete mining district in northern Peru (Simons), 399
Locating Quaternary cutouts in coal by seismic refraction method (Wier and Biggs), 101
Lower Carboniferous spore assemblage in coal from the South River area in northwestern Canada (Hacquebard), 777
Lower Paleozoic mineralization near Bathurst, New South Wales (Stanton), 681

Abstracts—Continued
Mica-bearing pegmatites of the Harts Range, central Australia (Joklik), 625
Microscopic studies of uranium-bearing coal deposits (Schopf and Gray), 103
Mineral zoning in the Portage Lake lava series, Michigan copper district (Stoiber and Davidson), 101
Mineralogy and geochemistry of the uranium deposits in the White Canyon area, San Juan County, Utah (Trites), 795
Mineralogy and petrology of the manganese protore at the Merid mine, Minas Gerais, Brazil (Horen), 780
Mineralogy of a uraninite-bearing pegmatite, Lac La Ronge, Saskatchewan (Ford), 196
Mineralogy of the Peanut mine, Montrose County, Colorado (Thompson and Roach), 794
Mining geology: Retrospect and prospect (McKinstry), 803
Minor elements in the ash of coals from western Kentucky, Indiana, and Illinois (Stadnichenko, Zubovic, and Hufschmidt), 793
Mode of occurrence of uranium in the Chattanooga shale (Deul), 772
Modified classification of economic deposits (Light), 333
Most important results of microflora investigations in Tertiary and Mesozoic strata of Europe, especially of Germany (Kremp), 784
Ore controls in sandstone uranium deposits of the Colorado Plateau (Wright), 135
Origin of ash-forming ingredients in coal (Deul), 103
Origin of heavy minerals in Jamaican bauxite (Hartman), 738
Oxidation of the Colorado Plateau ores and its relation to Recent geologic history (Weeks), 796
Paragenesis and structure of pitchblende-bearing veins, Central City district, Gilpin County, Colorado (Sims), 792
Pegmatite mineral deposits of the Alto Ligonha area, Portuguese East Africa (Hutchinson and Claus), 782
Pennsylvanian rocks and spore floras from the subsurface Warrior basin, Mississippi (Cropp, Kosanke, and Wanless), 769
Permafrost near Lake Athabaska, Saskatchewan (Legget), 786
Petrographic characteristics of sandstones of the Pennsylvanian of the central Appalachian coal field (Dapples and Mitchum), 770
Petrographic components and stoker coal testing (Harrison), 778

Abstracts—Continued
Petrography and regional characteristics of the Lower Kittanning coal (Schapiro and Cross), 790
Petrography of bauxite surrounding a core of kaolinized nepheline syenite in Arkansas (Goldman), 586
Progress in radioactive iron oxides investigations (Lovering), 186
Pyrochlore (columbium) carbonatite, southern Tanganyika (Fawley and James), 571
Recent uranium developments in Ontario (Bateman), 361
Regional setting and mineralogic features of the Howell zinc prospect, Jefferson County, W. Va. (Ludlum), 855
Relation between fracture pattern and hypogene zoning in the Freeland-Lamartine district, Colorado (Harrison), 311
Relationships of calcium carbonate to lithology and vanadium-uranium deposits in the Salt Wash sandstone member of the Morrison formation (Archbold), 766
Relationships of ore bodies to dikes and sills (Lewis), 495
Residual soils of the west slope of the Sierra Nevada and their engineering properties (Holdredge), 779
Rock weathering in engineering geology —problems and need for research (Kiersch), 783
Salt-water encroachment as induced by sea-level excavation on Angaur Island (Wentworth, Mason, and Davis), 669
Scheelite in feldspathized granodiorite, Gabbs district, Nevada (Humphrey and Wyatt), 781
Slumps and mud flows in rocks of Pennsylvanian age in the Appalachian Plateau (Fern and Huddle), 775
Soil mechanics properties of weathered volcanic rocks in Hawaii (Deere and Thornburn), 771
Some aspects of the crystal chemistry of the oxidation of the Colorado Plateau uranium ores (Garrels and Christ), 776
Some experimental factors that modify differential thermograms of bituminous coal (Clegg), 105
Some physico-chemical aspects of mineral deposition (Dewitt), 772
Stratigraphic nomenclature in coal-bearing rocks (Gray), 777
Stratigraphic pattern in pre-Marmaton Desmoinesian cycles (Searight), 791
Stress-strain relationships for igneous rocks (Wolkodoff), 797
Strippable coal reserves in the Fort Union region of Montana and North Dakota (Culbertson), 102

Abstracts—Continued
Studies of carbonaceous materials by vacuum differential thermal analysis (Breger), 105
Sulphide mineralization in the Skellefte district, northern Sweden, and its relation to regional granitization (Gavelin), 814
Summary of the stable carbon isotopes in humic and sapropelic sediments throughout the geologic column (Rankama), 105
Techniques and guides for exploration of uranium-bearing Shinarump channels on the Colorado Plateau (Wood and Grundy), 797
Trace element exploration of Maine lake water (Kleinkopf), 783
Tracing geological structures by geochemical means (Robertson), 100
Truck-mounted spectrographic laboratory for use in geochemical exploration—A preliminary report (Canney, Myers, and Ward), 768
Turbidity currents from the Magdalena River, Colombia (Heezen), 779
Uranium mineralization in the Cal uranium and Homestake mines, Big Indian Wash, Utah (Witter and Holland), 796
Uranium ore controls of the Happy Jack deposit, White Canyon, San Juan County, Utah (Miller), 156
Uranium ore guides, Monument Valley district, Arizona (Mitcham and Evensen), 170
Use of the angle prism in geologic mapping (Peters), 430
Utilization of business machine tabulations for the systematic classification of geologic data (Smith and Brant), 793
Vacuum differential thermal analysis of coal (King and Whitehead), 22
Vanadium and uranium in rocks and ore deposits (Fischer), 775
Vanadium mineral alteration sequences in relation to crystal chemistry and thermodynamics (Evans), 774
Variation of coal reflectance (Siever), 792
Variations of sulfur isotopes in sulfide minerals (Ault), 766
Volcanic succession and possible mineralization in Dwyer Quadrangle, southwestern New Mexico (Elston), 773
Wall-rock alteration as a guide to carnotite deposits and their origin, northern Black Hills, South Dakota (Vickers), 795
Wrench fault mechanics (Moody and Hill), 788
Acanthite, 347, 349

Adams, F. D., and Barlow, A. E., on Bancroft area, Ontario, 364
Adler, I., and Axelrod, J. M., abstract by, 765
Adularia, 414
Africa, French North Africa, dam sites (review), 439
geology, South Africa (review), 353
Horn of Africa, cultures (review), 545
Age and sedimentary environments of uranium host rocks, Colorado Plateau (Isachsen, Mitcham, and Wood), 127
Agricultural resources of the world (review), 354
Ahlfeld, A., on Corocoro district, Bolivia, 556
review of book by, 351
Alaska, alteration, fumarolic (abstract), 786
Arctic regions (review), 887
metals in volcanic rocks, Valley of Ten Thousand Smokes, 706
Albaredo, Herreta, J. M., on organic acids, 460
Alberta, Devonian, depositional features (abstract), 787
Albite, 204, 639, 641
Alexandrov, E. A., *Contribution to studies of origin of Precambrian banded iron ores,* 459–468
Alexandrova, L. N., on iron, 464
Algae, occurrence in Precambrian deposits, 460
Algeria, geology and water problems (review), 90
Allanite, 201
Allen, E. T., and Day, A. L., on carbon dioxide, 454
Allen, E. T., Crenshaw, J. L., and Johnson, J., on pyrrhotite, 694
Allen, S. W., review of book by, 439
Allen, V. T., on Ione sediments, 279
Allophane, 211
Alluvium, A field method for the determination of ammonium citrate-soluble heavy metals in soils and (Bloom), 533
panning campaigns, Gold Coast and Sierra Leone (discussion), 345
Almond, H., and Morris, H. T., on lead, 533
Alnöite, 577
Alpha-plate studies of lignite, S. D., 213
Alps, Austria, hydro-electric power station sites, 863, 865
Switzerland (review), 87
Alteration, Atacocha mine, Peru, 268
carnotite deposits, Black Hills (abstract), 795
Chilete mining district, Peru, 402, 413
Corocoro copper deposit, Bolivia, 562
Falconbridge mine, Ont., 46
feldspar and gibbsite, Arkansas, 587, 591, 606
Alteration—*Continued*
fumarolic, Alaska (abstract), 786
Happy Jack uranium deposit, Utah, 164
ilmenite to leucoxene, 743, 745
Irwin district, Colo. (abstract), 100
quartz diorite, Folsom dam project, Calif., 283
Santa Rita area, New Mexico, 17
Skellefte district, Sweden, 821, 824
Steep Rock Lake, Ontario, 385, 396
uranium deposits, Chuska Mtns., Ariz., 185
vanadium minerals (abstract), 774
vitric tuff to bentonite, Ariz., 469
Yellowknife area, N.W.T., 54
Alumina, 25
Alumina cement, use in sulphate rocks, Austria, 870
Alvarez-Calderón, G., on Chilete district, Peru, 403
Ammonium citrate-soluble heavy metals in soils and alluvium, A field method for the determination of (Bloom), 533
Amphlett, C. B., on oxidation, 192
Amstutz, G. C., review by, 753
Analyses. See Chemical analyses!
Analysis, Investigation of the coking properties of coal by vacuum differential thermal (King and Kelley), 832
Analysis of coal, Vacuum differential (King and Whitehead), 22
Andersen, H. V., abstract by, 765
Anderson, A. L., on sills, 511
Anderson, E. M., on faults, 313
Anderson, O., on perthite, 639
Anderson, R. Y., and Kurtz, E. B., Jr., *Biogeochemical reconnaissance of the Annie Laurie uranium prospect, Santa Cruz County, Arizona,* 227–232
Angaur Island, Salt-water encroachment as induced by sea-level excavation on (Wentworth, Mason, and Davis), 669
Angle prism in geologic mapping, Use of the (Peters), 430
Anhydrite, 871
Ankerite, 63, 589
Annell, C., and Frank M., spectroscopic analyses by, 619
Annie Laurie uranium prospect, Santa Cruz County, Arizona, Biogeochemical reconnaissance of the (Anderson and Kurtz), 227
Antigorite, 79, 81
Antipov-Karataev, I. N., on ferric iron, 464
Apatite, 715
Aplite, 505, 511
Appalachians, lead-zinc province, 855, 856
Pennsylvanian, slumps and mud flows (abstract), 775
Apparatus, chemical field test equipment, 536
Archbold, N. L., abstract by, 766

Archean rocks, Geological implications of an indirect method for mapping regional folds in (Gross), 321
Arctic, geography (review), 887
Argall, G. O., Jr., on uranium, 152
Argillation of tuff to bentonite, Ariz., 486, 487
Arizona, Applications of cross-stratification studies to problems of uranium exploration, Chuska Mountains (Lowell), 177
Biogeochemical reconnaissance of the Annie Laurie uranium prospect, Santa Cruz County (Anderson and Kurtz), 227
Bleaching clay deposits, Sanders-Defiance Plateau district, Navajo country (Kiersch and Keller), 469
Geology of the uranium deposits of the Lukachukai Mountains area, northeastern (Masters), 111
Uranium ore guides, Monument Valley district (Mitcham and Evensen), 170
ore bodies, relationships to dikes and sills, 498, 504, 506
soils, metal content, 537
Arkansas, Petrography of bauxite surrounding a core of kaolinized nepheline syenite in (Goldman), 586
Arsenic, geochemistry, 827
occurrence in lignite, 215
Arsenopyrite, 266, 405
Skellefte district, Sweden, 814, 821, 823
Asbestos, genesis, Quebec (discussion), 438
Asbestos in ultrabasic rocks, The genesis of (Riordon), 67
Ash, coal, germanium content, Nova Scotia, 519
Ash in coal, origin (abstract), 103
Ashrock, Steep Rock Lake, Ontario, 383
Asia (review), 353
Asphaltite, 542, 879
Colorado Plateau (discussion), 233
Assays, Cb_2O_5 in pyrochlore, Tanganyika, 579
lead-zinc ore, Chilete district, Peru, 404
Shawangunk mine, N. Y., 422
ores, Skellefte district, Sweden, 822
Atacocha mine, Department of Pasco, Peru, Geology of the (Johnson), 249
Atmosphere, Precambrian, oxygen content, 465
"Atoll" border texture, 200, 201
Aubrey, K. V., and Payne, K. W., on germanium, 519
Auger, P. E., on pyrrhotite, 340, 343
Ault, W. U., abstract by, 766
Australia, The mica-bearing pegmatites of Harts Range, central (Joklik), 625
geography and mineral industry (review), 888
Geological Society, Journal (review), 440
Australia—Continued
mica pegmatites, central Australia, 625
ore deposits (review), 84
Austria, Geology of important hydro-electric power stations (Winkler), 862
Autoradiographs, limonite, 190
Avery, —., and Anderson, chemical analyses by, 642, 645
Axelrod, D. I., abstract by, 767

Bachelet, M., *et al.*, on uranyl carbonates, 224
Backlund, H., on mineralization, 825
Bacteria, occurrence in Precambrian deposits, 460
sulphur-producing bacteria and ore deposition, Bathurst, N.S.W., 700
Bailey, E. H., and Phoenix, D. A., on mercury, 663
Baker, A. A., on Lisbon Valley anticline, Ariz., 147
on monoclines, 112
on Monument Valley, Ariz., 171
Ball, C., on bromoform, 209
Ball, S. H., on Idaho Springs formation, Colo., 312
